

Telegram & Gazette (Worcester, MA): Business briefs - Commuter kudos

BOSTON -- Three Central Massachusetts companies, EMC Corp. of Hopkinton and Westboro, Hewlett-Packard Co. of Marlboro and Intel Corp. of Hudson were named to the list of New England's Best Workplaces for Commuters, an annual list put out by the Best Workplaces for Commuters Coalition, a group of transportation, environmental, health and planning organizations.

The companies that make the list employ such creative techniques as telework programs, mass-transit subsidies, carpool incentives, facilities for those who walk or bike to work, shuttles and emergency ride home programs.
